## SUMMARY

I started in graphic design, where I discovered my passion for creating clean, visually appealing, and meaningful designs. Currently a student who has expanded into full-stack web development. Completed personal and freelance-style projects for myself and friends, gaining practical experience in design and development. Passionate about learning new technologies, improving skills, and creating modern digital experiences.

## WORK EXPERIENCE

**Freelance Student Designer & Developer**

2023 - Present

Designed posters, social media graphics, and branding materials.  
Developed responsive websites for personal use and friends.  
Built modern user interfaces with clean and responsive layouts.  
Collaborated with friends to transform ideas into functional websites.  
Focused on continuous learning and improving design and development skills.

**Projects**

Personal & Freelance Projects

Personal Portfolio Website - Designed and developed a responsive portfolio to showcase skills and projects.  
Graphic Design Projects - Created branding materials, posters, and social media graphics.  
Full Stack Web Projects - Built functional web applications using HTML, CSS, and JavaScript.  
Personal & Friends' Websites - Developed and deployed websites for personal use and peers.

**Soft Skills**

Key Competencies

Problem Solving, Team Collaboration, Communication, Time Management, Attention to Detail, Project Management, Creative Thinking, Client Communication.

**Career Objective**

Internship | Freelance | Junior Developer

Seeking opportunities in graphic design, web development, and UI/UX design. Open to internships, freelance projects, and junior developer roles where I can apply my skills, contribute meaningfully, and continue growing as a designer and developer in a professional environment.
